INDUSTRY EXPERT FEEDBACK FORM

Predictive Anemia Screening and Healthcare Resource Planning Using Full Blood Count Data in Sri Lankan Healthcare Institutions

Please complete this form after reviewing the accompanying Findings Summary document and discussing the project with the consultancy team. For each rating scale, please mark the box that best reflects your professional assessment, and use the comment space to explain your rating, the comments are the most valuable part of this form for the consultancy team's final recommendations. There are no right or wrong answers; we are seeking your genuine, independent professional judgement, including criticism where warranted.

Section 1: Relevance of the Problem

The consultancy team identified anemia screening and resource planning, based on routine Full Blood Count data, as a significant and under-addressed problem for Sri Lankan healthcare institutions.

1.1 This **is a genuinely important problem for Sri Lankan healthcare institutions to address.**	**1** Strongly disagree	**2** Disagree	**3** Neutral	**4** Agree	**5** Strongly agree
Circle or mark one:	☐	☐	☐	☐	☐
1.2 The **problem is well-framed and reflects real operational/clinical priorities, not just an academic exercise.**	**1** Strongly disagree	**2** Disagree	**3** Neutral	**4** Agree	**5** Strongly agree
Circle or mark one:	☐	☐	☐	☐	☐

Comments - relevance of the problem (e.g. is this a genuine priority? What did we miss or overstate?)

Section 2: Practicality of Recommendations

The consultancy team recommends:

(a) a predictive screening model using routine FBC indices

(b) a calibrated decision threshold based on expected clinical costs rather than a default 0.5 cutoff

(c) an institutional resource-planning dashboard.

2.1 These recommendations are realistic and grounded in how anemia is actually managed in practice.	**1** Strongly disagree	**2** Disagree	**3** Neutral	**4** Agree	**5** Strongly agree
Circle or mark one:	☐	☐	☐	☐	☐
2.2 The proposed screening/triage approach would be usable by clinical staff without excessive disruption to existing workflow.	**1** Strongly disagree	**2** Disagree	**3** Neutral	**4** Agree	**5** Strongly agree
Circle or mark one:	☐	☐	☐	☐	☐

Comments - practicality of recommendations (e.g. what would need to change? What is unrealistic?)

Section 3: Implementation Feasibility

Implementing this framework would require integration with existing laboratory systems, staff training, and agreement on the cost assumptions used in the decision threshold, among other practical steps.

3.1 This framework could feasibly be implemented within your organization's current resources and systems.	**1** Strongly disagree	**2** Disagree	**3** Neutral	**4** Agree	**5** Strongly agree
Circle or mark one:	☐	☐	☐	☐	☐
3.2 The implementation challenges identified by the consultancy team (data inconsistency across sites, staff adoption, cost-ratio calibration) are the correct ones to prioritize.	**1** Strongly disagree	**2** Disagree	**3** Neutral	**4** Agree	**5** Strongly agree
Circle or mark one:	☐	☐	☐	☐	☐

Comments - implementation feasibility (e.g. what barriers are missing from our list? What would make this easier?)

Section 4: Organizational Impact

The consultancy team expects this framework to improve early identification of at-risk patients and to support more evidence-based resource allocation across institutions.

4.1 If **implemented well, this framework would have a meaningful positive impact on patient care.**	**1** Strongly disagree	**2** Disagree	**3** Neutral	**4** Agree	**5** Strongly agree
Circle or mark one:	☐	☐	☐	☐	☐
4.2 If **implemented well, this framework would have a meaningful positive impact on operational/resource decision-making.**	**1** Strongly disagree	**2** Disagree	**3** Neutral	**4** Agree	**5** Strongly agree
Circle or mark one:	☐	☐	☐	☐	☐

Comments - organizational impact (e.g. any unintended consequences or risks we should consider?)

Overall Assessment

In your own words, what is your overall impression of this project, and what is the single most important change you would recommend the consultancy team make to their final recommendations?

Sign-Off

I confirm that the feedback above reflects my genuine professional judgement, given independently of the consultancy team.
